**CONTRACTOR PAST PERFORMANCE EVALUATION** (continuation page)

S-AQMPD-05-D-1098 WPPS II

Task Order 1, Local Program Management Office (LPMO)

DS/OPO/HTP Division Chief, COR

7-1-08

Quality / Business Relations / Customer Satisfaction: During the late summer and fall of 2007, actions by Blackwater WPPS management personnel, concerning two task orders, caused the program office to lose confidence in their credibility and management ability. Blackwater management's lack of communication and handling of the two separate incidents disrupted Program Office and Regional Security Office operations. While the Program Office was in the process of requesting the removal of the Local Program Manager, the Director and Deputy Director of WPPS Operations, and two project managers, the personnel in question resigned from the WPPS program.

Recently appointed Blackwater personnel have been making steady progress in restoring confidence in the LPMO and it is expected that the next past performance evaluation will be substantially improved.
